

CSE4204-8D-T03 Team Information Sheet

Team Name	CSE4204-8D-T03
Section	8D
Project Title	Smart Farmer Assistant: AI-Based Agriculture Support System
Team Leader	Name: Sakib Foysal Ejarder ID: 11220320948
Student IDs: 11220320948 11220320946 11220320950 11220320974	List of all members: Sakib Foysal Ejarder Md. Noyon Sheikh Sayed Tauhidul Islam Sayed Akib Osman
GitHub Repository	https://github.com/sakib-foysal/CSE4204-8D-T03-Smart-Farmer-Assistant

Initial Project Planning

Phase 1 — Planning & Research

- Requirement analysis
- Research existing agriculture systems
- Prepare project proposal
- Create GitHub repository

Phase 2 — System Design

- Design database schema
- Create UI/UX design
- Setup frontend and backend architecture

Phase 3 — Development

- Develop authentication system
- Build AI chatbot integration
- Develop crop disease detection module
- Implement weather and market APIs

Phase 4 — AI Integration

- Train/test disease detection model
- Integrate TensorFlow and OpenCV
- Connect Gemini AI assistant

Phase 5 — Testing & Deployment

- Perform system testing
- Fix bugs and optimize performance
- Deploy frontend and backend systems

Phase 6 — Final Documentation

- Prepare project report
- Create presentation slides
- Submit final project and documentation
